**Lee HC, Graduate of 2014**

**HKDSE Results: Best 6: 39 points**

**University Study: CUHK-Global Business**

***Confidence Matters --- It Boosts Your Capacity***

‘Believe in yourself and it will unleash all of your potential.’ Such words are my heartfelt experience during the whole DSE exam process.

I would not say I’m a top student in my secondary school years. Falling behind the teaching progress, feeling listless sometimes, not working to full capacity in some assignments – these were all commonplace along the years. My Final Examination results in Secondary 5 could not be considered satisfactory. Therefore, I had had moderate expectations of myself, once.

Yet, the fire within me resisted the expected grades. ‘I believe I can do much more, and much better.’ This always lingered on my mind every time I was told that I could only get a Level 4. With such a thought stuck inside my head, I worked hard with my very best, not reconciling myself to a yet-to-be-satisfactory grade. On the day when the DSE Exam results were released, I was truly touched by the fact that my hard work pays off – most of my results are better than my expected levels. Believe that you can exceed your limits. As long as you trust in yourself and do vigorously for it, you will achieve your excellence.
