Work Hard ---The Only Key!

‘Work tops talents; work wins over smartness.’ That’s how I feel after the release of HKDSE Exam results. If you are going to be successful at anything, the key is: work hard.

Public examinations are tough. However, we cannot escape from them. It is a process which leads us to our dreams. Along the path, we may fall down, we may feel helpless and alone, we may cry as we are too pressured, etc. Yet, we should never give up. Never ever tell ourselves that ‘I can’t’. Never deny our own abilities.

Life is hard. Yet, don’t forget that we are backed up by lots of people like our family, our friends and our teachers. To be honest, the teachers in HTYC really contribute a lot to my present achievements. Do treasure their teachings and follow their guidance. They are experienced in different aspects. No worries! When you have a dream, you should protect it. Are you willing to sacrifice all temptations for your dream? I’m willing to and I believe all HTYC students can do so! Visualize your dream and go for it!
